## The Santa Fe® candle line

100% pure beeswax

**SOLID PILLARS.** Our signature line. Cast in two top shapes, slightly domed “flat top” and peaked “colonial top”, these long-burning elegant traditionals set us apart from other makers. Satin finish in fragrant alfalfa and clover capping wax. The cotton wicks are a modern design with a few paper strands and high melt-point vegetable wax to maximize burn properties and allow these candles to be burned free-standing or in containers – as a container candle. The wicks are secured in a metal burn control tab that keeps the flame from reaching the holder surface when burned free-standing, and keeps the wick upright for a full burn if in a container.

**DIPPED TAPERS.** We make several styles of hand-dipped tapers. Classic 7/8” diameter pairs which fit standard candle holders come 6”, 9” and 12” tall and are boxed in simple recycled paper boxes. Slender 1/2” diameter “Danish” tapers come in boxes of one dozen, 4” and 10” tall. Our tapers burn long, bright and, under normal burning conditions, dripleless.

**ROLLED HONEYCOMB.** From honeycomb sheets and pure cotton wicks we fashion our R-series candles from tiny to truly impressive. From mini beehives to 24” tall columns, we currently make many sizes not on our pricelist, so please ask.

**ROLLED SOLID.** Similar to the R-series, the RS (rolled solid) series is made with solid sheets of beeswax which, when rolled, make an essentially solid candle.

**VOTIVES.** Our 18-hour votives have the same tabbed wick as our solid pillars giving a complete burn (no residual wax) when burned in the proper container.

**TEA LIGHTS.** With tabbed wick and each in a clear high-heat plastic, our standard tea lights come in a box of 12 and burn four hours each. We also package them in 150-count bulk cases. Our 1” tall tea light burns 7-8 hours.

**SPECIAL & SEASONAL.** From our B-day™ birthday candles, pearl-studded dinner columns and pillars adorned with braided strands to Easter eggs and Hanukkah candles, count on us for the new and the necessary.

**Please ask us about private labeling and special order styles.**
